

REMARKS

In an Office Action dated May 9, 2005, the Examiner asserted a restriction requirement as between claims 1-21 and claims 22-43. Applicant elects claims 22-43 to pursue in this application.

This application is a divisional of 10/105,831, filed on March 25, 2002 and issued as U.S. Patent No. 6,756,237 on June 29, 2004. In a preliminary amendment filed with this divisional application, claims 1-21 were canceled and claims 22-43 were left to remain in the application. Though no longer required practice, the Applicant filed the original disclosure of the parent application in this divisional application and made changes thereto by preliminary amendment. That preliminary amendment further added a priority claim, statement of government rights, and submitted formal drawings.

The Applicant's below-named representative is available to clarify any issues that may be unclear. Examination of this application is respectfully requested.

Respectfully submitted,

Gerald J. Stanton (Reg. No. 46,008)
